

Company Snapshot

Headquarters: Miami, Florida

Mailing Address: 382 NE 191st St, #450340, Miami, FL 33179

Service Area: Southeast U.S. preferred (deployable support as required)

Primary POC: Jon F. Berry, President & Managing Partner

Phone: (360) 742-9796

Email: jon@commandpostrecovery.net

UEI: ZTSQCHMLM67

CAGE: 9MRE5

Socioeconomic: SBA-certified SDVOSB (Service-Disabled Veteran-Owned Small Business)

Core Capabilities

- Disaster response and base camp support coordination for temporary or deployed operations.
- Portable sanitation: standard and ADA portable toilets, plus hands-free handwash stations.
- Restroom trailer rentals (8- and 10-stall options) with scheduled servicing, interior cleaning, and consumable restocks.
- Wastewater and septic service coordination (pump, haul-off, and compliant disposal).
- Potable water support for trailer and handwash station operations (fill and delivery coordination).
- Solid waste collection support for temporary sites and sustained operations.
- Logistics and freight support for deployments: staging, routing, and last-mile delivery coordination.
- Program management / general management consulting support: requirements intake, schedule control, reporting, and closeout.

Equipment Access & Surge Capacity (Partner-Enabled)

- Access to large fleets of luxury restroom, shower, laundry, and bunkhouse trailers via strategic partner network (scope dependent).
- Partner-enabled fleet visibility with GPS tracking to support ETA forecasting and route optimization.
- Dedicated potable water trucks available (2,000-gallon capacity each; via partners).
- On-demand relocation capability for portable latrine assets (pump/clean/load/relocate; target within ~18 hours, site/scope dependent).
- Restroom trailer capacity range (typical): ~200-gallon freshwater and ~980-1,100-gallon wastewater (8-10 stall trailers; scope dependent).

Differentiators

- **SDVOSB set-aside eligible** - positioned for SDVOSB competitive set-asides (and other veteran preference opportunities where applicable).
- Veteran-led team with deep operations, logistics, and mission support experience.
- Responsive communication rhythm and disciplined execution - ideal for high-visibility, multi-site requirements.
- Scalable partner-enabled capacity to surge personnel and equipment for short- or long-term missions.
- Clear focus on clean, well-serviced equipment standards and professional on-site support.

Quality, Safety & Compliance

- Project-specific Sanitation SOP aligned to MIL-STD 3006, TB MED 530, and applicable USDA/federal/state/local requirements when in scope.
- Daily/weekly inspection checklists and audit cadence; corrective action tracking for compliance findings.
- Permits/certifications managed electronically and available upon request.
- Food-safety hazard analysis controls when contract feeding is in scope (employee health, temperature control, sanitation, and cross-contamination).
